

A wooden desk with a globe, a pen, and a notepad. The globe is in the top left corner, the pen is on a notepad in the middle left, and the rest of the desk is covered in a wood-grain laminate.

Elevating environments with durability and style.

Acting beyond the surface.

At Wilsonart®, we are committed to conscious craftsmanship. Sustainable manufacturing. Exceptional durability. A personal care throughout. Surfaces that reflect the values of architects, designers, and end users.

Choose our surfaces with confidence, knowing they're engineered to last and third-party certified to help maintain a safe indoor environment. We take pride in leading the industry with achievements like Declare labels, LBC Red List approval, and more post-consumer recycled content used than any leading laminate brand.

ON AVERAGE, WILSONART® HPL CONTAINS 23% POST-CONSUMER RECYCLED CONTENT, WHICH IS 2X MORE THAN ANY LEADING LAMINATE BRAND.

SOLVE SUSTAINABLY

Inspired by nature, but created without the impact. Through superior engineering, we provide methods and materials to solve your design challenges with recycled content, sustainably sourced components, and resource-efficient manufacturing.

LAST BEAUTIFULLY

Stands up to everyday use, high traffic, and the maintenance demands of sensitive environments, like hospitals — without the waste of replacing a damaged surface before its time.

CARE PERSONALLY

Your greatest must-have for a space is well-being. Our HPL helps you take care of indoor air quality — so end users are better able to take care of their health. Wilsonart® HPL is also the first product in the laminate category to receive a Declare label and is LBC Red List approved.

Wilsonart® High Pressure Laminate

Wilsonart® High Pressure Laminate (HPL) is engineered to revolutionize interior design with a robust catalog that is prepared for any project. There are endless styles, but only one objective — elevating environments everywhere. Durable Wilsonart® HPL offers lasting visual appeal and greater peace of mind with innovative stain and moisture resistance. Plus, HPL features the industry's first Declare label and 2x more post-consumer recycled content than any other leading laminate brand. To achieve a customized creative vision with HPL, our made-to-order catalog and custom design and color request form can be found at wilsonart.com.

Coordinated Solutions

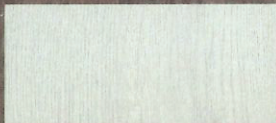

As a world-leading creator of decorative engineered surfaces, Wilsonart delivers a wide range of innovative laminate solutions and services.

Harmonized design is the hallmark of our coordinated solutions program, which includes Wilsonart® HPL, TFL, Edgeband, Cabinet Doors & Moldings. For more information: wilsonart.com.

Woodgrains

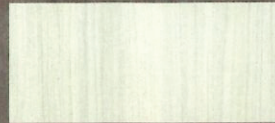

Notable textures for Wilsonart® HPL woodgrain designs include a three-dimensional, synchronized Aligned Oak (-57) texture, as well as three brand new textures – Ridgewood (-79), Timbergrain (-05), and Aligned Walnut (-67). Woodgrain styles from repairable Traceless™ Laminate are complete with a fingerprint-resistant, ultra-matte finish. All Wilsonart woodgrain designs feature natural variations reminiscent of real veneer, but are engineered to perform at a higher level.

Specialty Laminates

Discover unique laminate performance enhancements and design options that can handle the challenges of one-of-a-kind interiors. Made to endure everything from chemical spills to fire damage, our hardworking enhancements can fortify any space. And design options like custom color or colored core laminate will expand your creative potential.

PERFORMANCE ENHANCEMENTS

CHEMICAL-RESISTANT

Specifically designed for environments where chemicals and harsh cleaners are used, Wilsonart® Chemsurf® provides exceptional chemical resistance without sacrificing design or style.

FIRE-RATED

This long-lasting, beautiful laminate meets or exceeds the fire codes across the country and comes in a wide range of patterns and colors.

PEEL AND STICK

RE-COVER™ combines vertical grade laminate and adhesive to create an alternative time- and money-saving option to standard laminate installation and fabrication.

WRITABLE SURFACES

Wilsonart® Chalkboard is the perfect solution for any space or application that demands a durable and affordable writing surface, and unlike other chalkboard surfaces, it requires no special maintenance. Wilsonart® Markerboard is ideal for classrooms, business and administrative offices, message centers, and athletic facilities. It's also great as a menu board.

INCREASED DURABILITY

Low-cost and built to take the extra wear that comes with high traffic commercial projects, Wilsonart® High Wear Laminate boasts more than five times the industry standard for abrasion resistance.

FINGERPRINT-RESISTANT

Wilsonart® Traceless™ Laminate is a fingerprint-resistant, repairable surface that resists smears, smudges, and streaks. Accompanied by a velvety texture, your senses will swoon over this soft-to-the-touch, ultra-matte finish. Minor scratches can also be easily removed with a white sponge, or melamine foam, also known on the market as a "Magic Eraser."

DESIGN OPTIONS

CUSTOM SOLUTIONS

Reach beyond the wallboard with Wilsonart's expanded made-to-order library and custom possibilities. From photorealistic imagery to abstract and artistic graphics, Wilsonart offers a wide range of patterns to fit your needs. Build a custom color or custom design laminate surface that is uniquely yours. Learn more at wilsonart.com/digital-print-studio.

COLORED CORE

Wilsonart® SOLICOR™ Compact Laminate is a specialty laminate created with a solid color core – eliminating the troublesome "brown line" of traditional laminates. A new range of our popular color-through designs is also available in SOLICOR™ Compact Laminate, our laminate composite panels.

THERMALLY FUSED LAMINATE (TFL)

Find a suite of "one-stop" coordinated Wilsonart® TFL solutions in best matched design and texture. Accessory cabinet door fronts and moldings are available. Plus, create inner beauty with new cabinet interiors in linen and textile designs. Visit wilsonart.com/tfl-panels.

Wilsonart® HD® Laminate

A fusion of beauty and state-of-the-art technology, Wilsonart® HD® Laminate is the hardest wearing Wilsonart® Laminate ever designed. Wilsonart® HD® Laminate with Antimicrobial Protection and AEON™ Enhanced Scratch & Scuff-Resistant Performance Technology is intended for residential applications and many commercial applications, including countertops, work surfaces, checkout counters, and tabletops.

Laminate Finishes

Explore finishes that will complete your perfect laminate surface with visual and tactile beauty. Premium and Wilsonart® HD finishes offer a premium look and feel with realistic textural elements and enhanced performance with AEON™ Enhanced Scratch & Scuff-Resistant Performance Technology.

THE AEON™ ADVANTAGE

Our AEON™ Enhanced Performance Technology provides 3x industry standard wear resistance and improved scratch, scuff, and mar performance, versus comparable competitive finishes.

ANTIMICROBIAL PROTECTION is built into Wilsonart® HD® finishes to protect the surface against damaging microbes. When used for countertops and work surfaces, antimicrobial agents inhibit the growth of bacteria, mold, and mildew that cause stains and odors. Antimicrobial protection is also available as a performance enhancement on premium and standard finishes.

#38 FINE VELVET TEXTURE - STANDARD

A smooth-textured finish with moderate reflective value.

#60 MATTE - STANDARD

Textured finish with a moderate reflective quality.

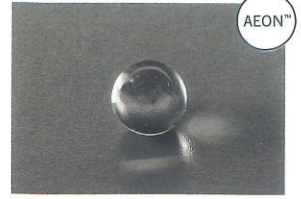

#01 HIGH GLOSS - PREMIUM

A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light to medium commercial applications. Excellent for vertical applications.

#05 TIMBERGRAIN - NEW PREMIUM FINISH

A low-sheen wood finish with a dimensional, realistic ticking and natural variation across the surface texture, much like a natural veneer.

#07 TEXTURED GLOSS - PREMIUM

A fine textured surface with a sheen level indicative of a waxed wood, polished stone, or other moderately reflective materials.

#12 SOFTGRAIN - PREMIUM

A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look.

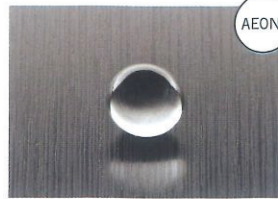

#15 FIELDSTONE - NEW PREMIUM FINISH

This matte finish has a mixture of low sheen, stone-like textural attributes layered across the surface. And layered on top are fine, irregular veins and features in a higher sheen, which create natural contrast and dimensional organic detail.

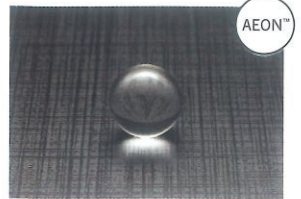

#16 CASUAL RUSTIC - PREMIUM

A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights.

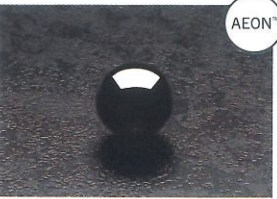

#18 LINEARITY - PREMIUM

A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains and linear patterns and provides dimension and visual movement to solid colors.

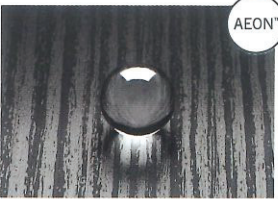

#19 LENO WEAVE - PREMIUM

Random intersecting horizontal and vertical lines create a geometric weave with a matte-gloss mix.

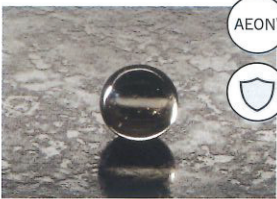

#22 ANTIQUE - PREMIUM

A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal.

#28 GLOSS LINE - PREMIUM

A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas.

#35 MIRAGE - HD PREMIUM

Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished.

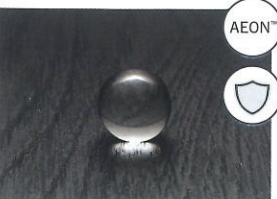

#52 QUARRY - PREMIUM

Premium finish emulating the "pitted" look of polished natural stone.

#55 GLAZE - HD PREMIUM

A layering of matte features over a glaze of semi-gloss creates this timeworn effect.

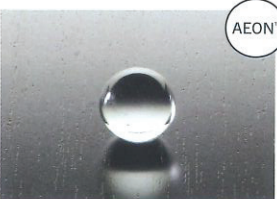

#57 ALIGNED OAK - HD PREMIUM

Authentic realism is brought to the surface using synchronized texture, as each elegantly aged oak design exhibits the natural dimension and feel of real wood.

#67 ALIGNED WALNUT - NEW WILSONART® HD® FINISH

A modern, elevated matte finish with sophisticated textures. Ideal for HPL surfaces in larger settings to create an authentic woodgrain look and feel.

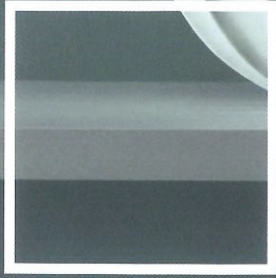

#78 FINEGRAIN - PREMIUM

This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet.

#79 RIDGEWOOD - NEW PREMIUM FINISH

An overall matte finish with ridged dimensional features creating a linear woodgrain effect.

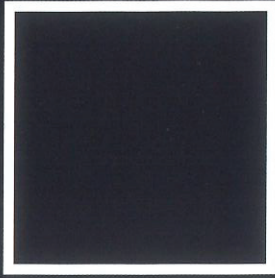

Composite Panels

Available in thicknesses from 1/10" to 1", Wilsonart® Compact Laminate is a durable solution for high-impact surfaces such as lockers and cabinets, elevator cabs, and toilet partitions. A new range of our popular neutral color-through designs are also available in thick SOLICOR™ Compact Laminate. View designs at wilsonart.com.

Decorative Edges

Wilsonart® Decorative Edges for laminates forever eliminate the brown seam line. Choose from two unique architectural options to add the perfect finishing touch to countertops, tables, desks, and reception counters. Available in all Wilsonart® designs.

DEEPSTAR AGATE 1815K-35

STONE

BEVELED EDGE

Strong, crisp angles enhance a solid stone look with a classic look and feel. The 45-degree angle "cut" reflects light for a defined border that smartly frames a countertop.

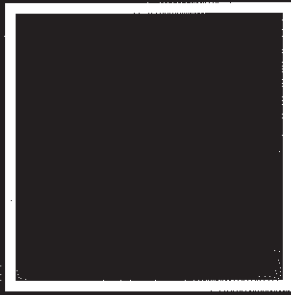

OLD MILL OAK 7973K-12

PLANKED WOODS

CRESCENT EDGE

This versatile edge blends into nearly any design. It's the perfect finishing touch that adds depth and sophistication to any space.
