

Filing and Storage

Verticals

Traditional style brushed aluminum handles with positive thumb latch catch for anti-rebound are HSA models [high-sided "A" Style Fronts].

Full width recessed drawer pull using special construction case channels to prevent rebound. These are HSB models [high-sided "B" Style Fronts].

Series: Bentson, 1400, 1100

- Invincible™ vertical files are available in a variety of heights: 2 drawer (29"H), 3 drawer (39-7/8"H), 4 drawer (52"H), & 5 drawer (60-7/8"H). All files use a 3-piece body welded construction. Heavy gauge steel cross members combined with welded top and full steel bottom form a rigid case assembly.
- Invincible™ Bentson Series files are full 6-upright files using heavy 13 gauge drawer runs welded to 18 gauge uprights creating a "ladder" system, giving the file unmatched strength and durability; full 20 gauge steel bottom, 20 gauge drawer fronts, and full steel drawer front liner.
- Available with traditional style brushed aluminum handles with positive thumb latch catch for anti-rebound (HSA Style Fronts) or with full width recessed drawer pull with anti-rebound case channels (HSB Style Fronts).
- Verticals are 28" deep, in letter & legal width sizes.
- All files come standard with high side drawers and may be ordered with optional quick release compressors.
- A single lock controls all drawers. The lock may be field or factory installed and are keyed at random. Specify if to be keyed alike to other units.
- Replacement locks and master key locks are available.
- Optional security lock bars (SLB) are welded to outside of file and must be secured with a padlock. Padlock is not provided.
- Maximum weight capacity is 75 pounds per drawer.
- Available with optional leveling glides.

Suspensions

- Bentson Series vertical file cabinets have triple-tied, steel cradle suspensions with nylon-tired steel ball-bearing rollers.
- 1400 Series vertical file cabinets have triple-tied, steel cradle suspensions with nylon rollers.
- 1100 Series vertical file cabinets have 3 segment progressive suspensions.

VISTA with Storage

Storage Cabinets offered in a variety of depths, widths and heights that combine file, wardrobe and bulk storage, we can create generous storage and filing solutions to meet your requirements.

Laterals

Our laterals offer a more traditional appearance with a compact 18-1/8" depth. Both the Bentson and Independence lines are offered in 30", 36" and 42" widths. The cabinets are full width drawer pulls having double box bottom construction. Drawer heights are 10-1/2" high on the Independence Series and a full 12" high on the Bentson Series.

Technology Center

Our Technology Command Center was designed with security in mind. The shelving is adjustable. Locking double front doors feature integral full pulls. May be ordered with wheels for mobility. Side and back ventilation keeps technology equipment cool.

Storage

A century long tradition of quality. A solution for every storage and filing challenge. Colors and designs to meet the most discriminating taste. Did you know that Invincible™ has forty-three standard powder coat colors to choose from. Invincible™ quality and options.

Variety

STORAGE

Compare our suspensions, our construction, our design and our variety. Built for everyday use in a demanding workplace.

About our logo:

Over the 100 plus years that Invincible™ has done business, our logos through the years have represented the integrity, reliability, and the professionalism of a kingsmen, the Invincible™ knight, covered by the shield of lifetime warranty protection.

Our current logo is a spin off of the knight's headdress. It represents unity, teamwork, and strength. When you buy Invincible™ furniture, you are buying quality.
